

Sportsmanship - Mercy Rule

Warren County Basketball League

In the event a team has injury or educational issues which causes lack of player participation by a player(s) and results in a negative result on the team, upon submission of a medical note or note from school official, the Warren County Basketball League, will review the situation and consider the allowance of player(s) participating on the team from a lower level for the playoff/tournament games. However, the player from the lower level must take his/her team from his/her level into consideration first.
